# Agreement Form

We all agree to be calm and considerate to our new puppy.

We are all going to teach our puppy how to behave and to do this we must be consistent with lots of lovely rewards.

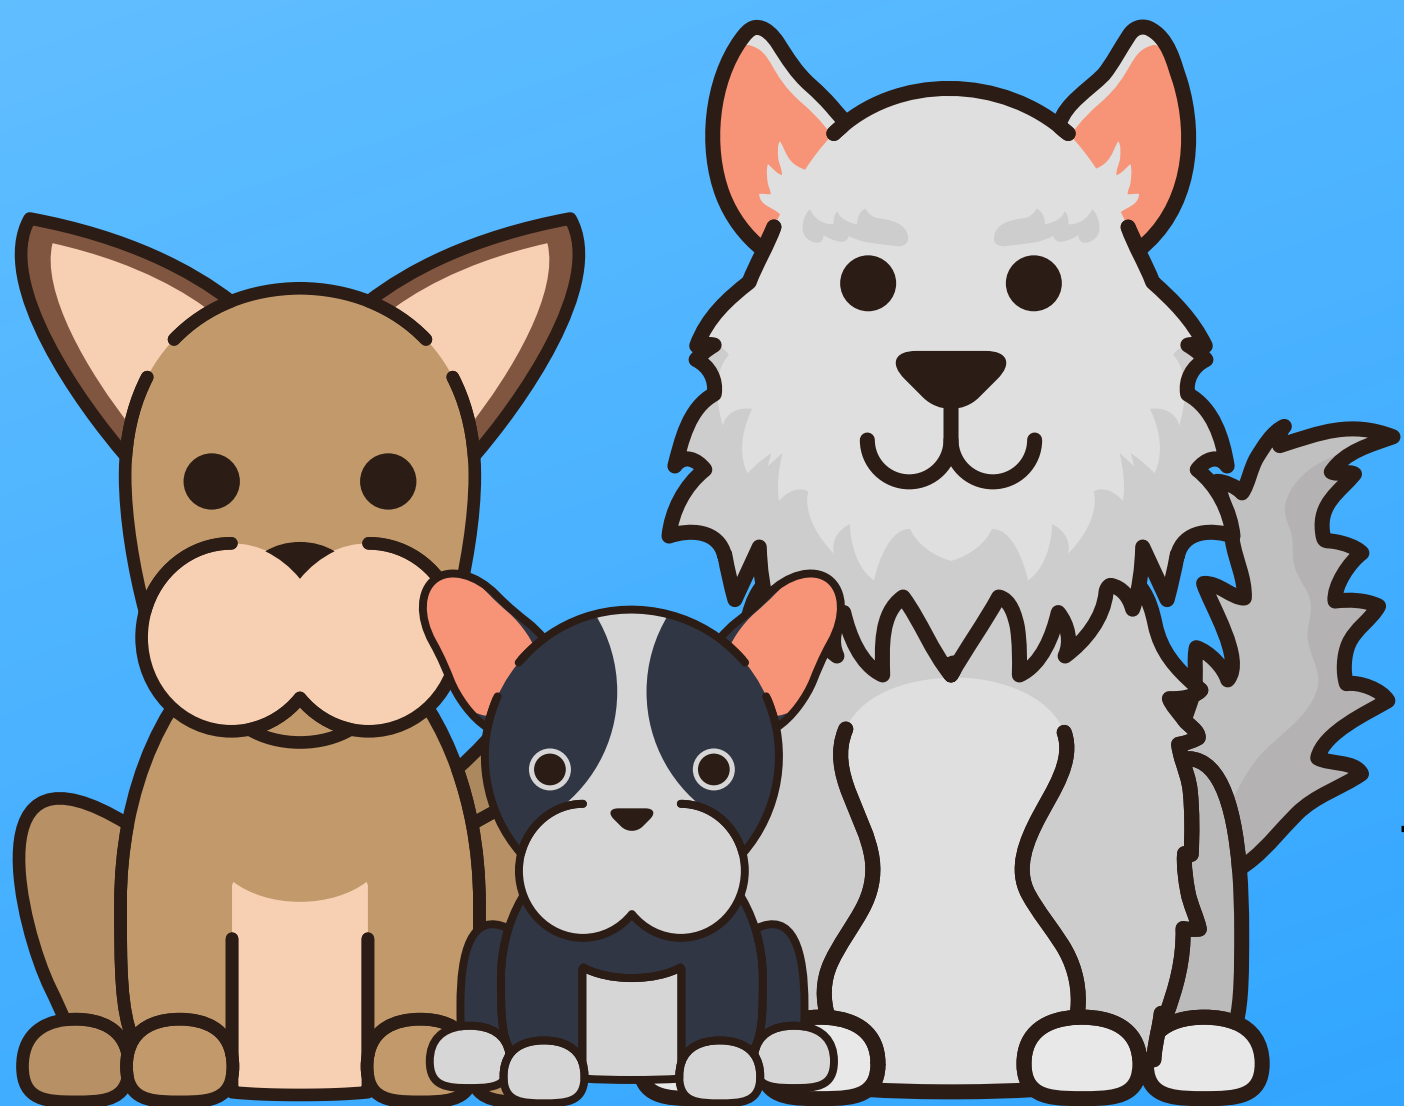

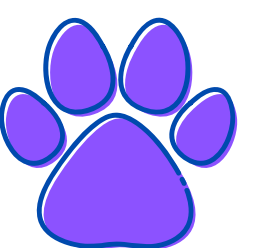

We agree to do any chores that are needed and to stick to puppy's routine.

We all agree to love our puppy and give them lots of cuddles.

# Puppy's rules

It will help if we all understand the rules that our puppy has. These can be decided as a family.

Write them below so you all know.  
For example: Do not feed the puppy from your plate

# Doggy Dictionary

To help our puppy we must all use the same words so that our puppy can learn quicker.

Make a note below of all the words you'd like to teach your puppy and what that word means

E.g. Sit means that they have their bottom on the ground

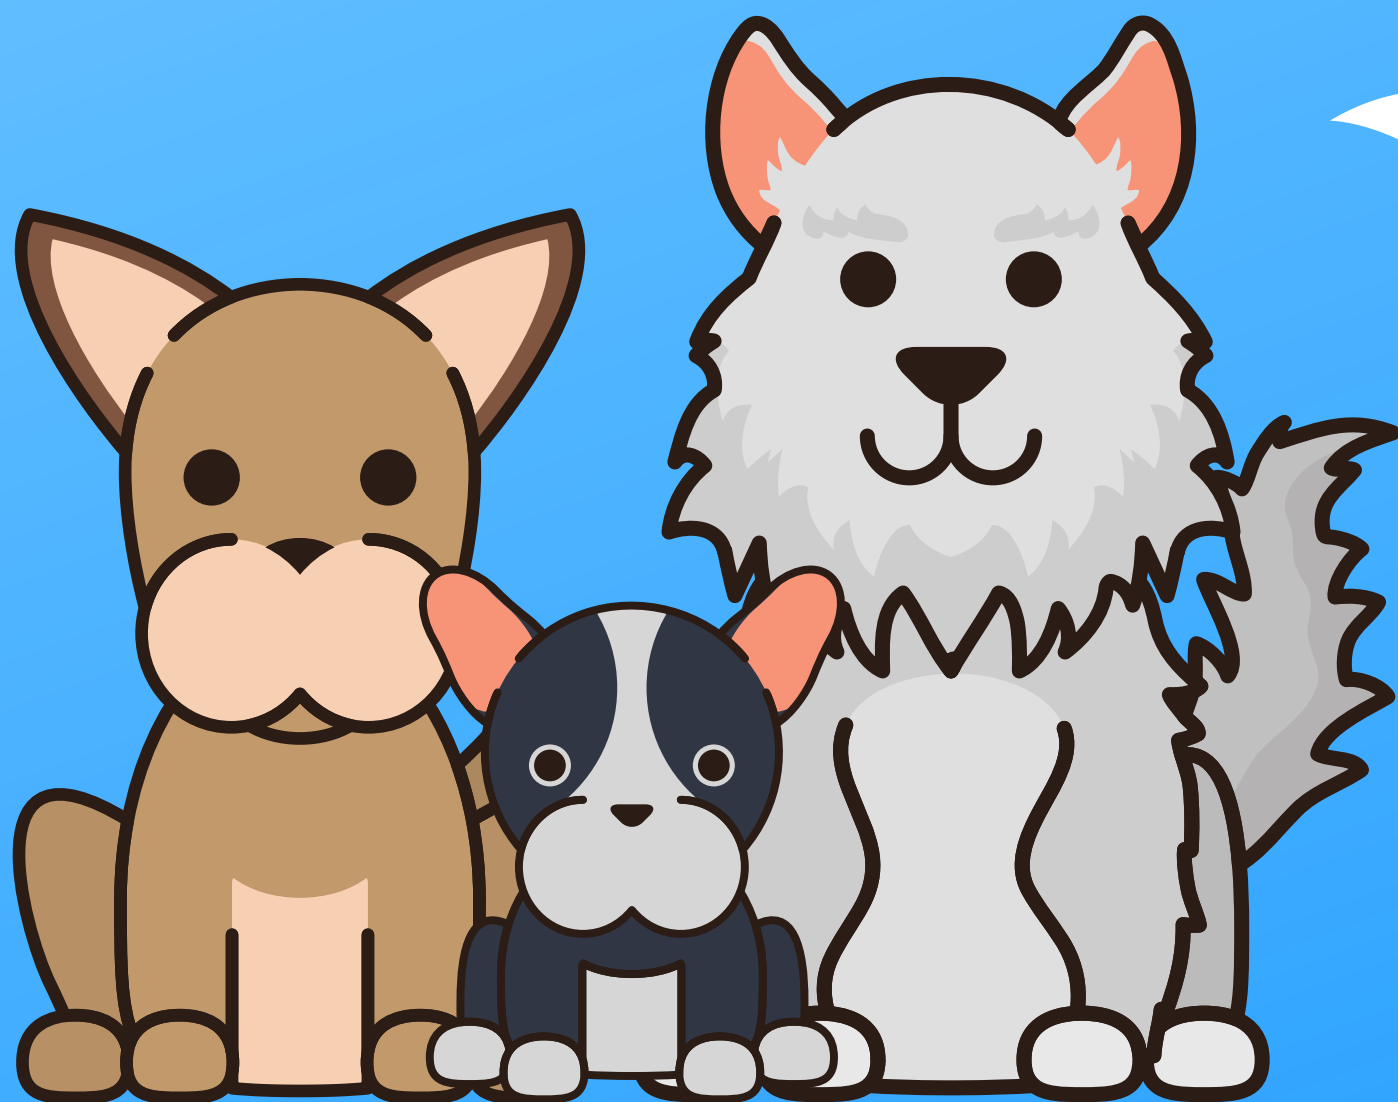

Don't worry if you need more space, use the note pages at the back of this book
